

A CLEAN, PRODUCTIVE AND SHARED

# BALTIC SEA

Clear coastal waters

Healthy marine habitat

Clean and safe water traffic

Systematic water area management

Active Baltic Sea citizenship

# THE BALTIC SEA CHALLENGE

# WHAT BALTIC SEA CHALLENGE?

- The Baltic Sea Challenge is a free-of-charge, international network that is focused on protecting waters and is open to all actors.
- The actors in the Baltic Sea Challenge network have committed to take concrete action to protect the waters on a voluntary basis, exceeding the requirements of law and their own core operations.
- The actors involved in the Baltic Sea Challenge can use the network to find partners, share information, and learn and work together to improve the state of the waters.
- The Baltic Sea Challenge network provides the actors with a channel that they can use to tell other actors about their work, gain access to versatile events and much more.

**FIND A PARTNER,  
SAVE YOUR LOCAL WATERS!**

## HOW DO WE JOIN?

- Discuss the Baltic Sea in your organisation. Would you like to commit to water protection?
- Brainstorm together about how you could improve the ecological state of the waters through your own work. If you need support, you can contact the coordinators of the Baltic Sea Challenge. We will assist you!
- Choose, at least, one action for protecting the waters that suits your own operations and that your organisation can commit to launch within one year.
- Download the Baltic Sea Challenge commitment form at [www.balticseachallenge.net](http://www.balticseachallenge.net)
- Make sure that your organisation is ready to commit to the vision and objectives of the Baltic Sea Challenge.
- Inform the members of your organisation about the commitment.
- Fill in the commitment form and send it to the coordinators of the Baltic Sea Challenge.

### Welcome to our network!
